

Come and let your light shine through!

Calling all Sweet Adelines: we have a way to showcase your spirit for our organization that will have you singing with joy.

Check out our spirit-lites! They're 3-D disks, powered by LED lighting. The logo automatically lights up through a sensor that turns the light on and off when your car isn't moving or it's daylight. That means during both day and night, our logo (and your spirit) shines through. Now that's something to sing about!

At \$30.00 per disk, it's a great investment, and a unique way to feature your dedication to our organization. So come on—let your light shine through!

Visit Capitolshowcasechorus.com to order yours today!
